

CARE OF CHILDREN (True Incident of Life)

When I was in first standard. I was going to school with my elder sister and her friend. My walking speed was slow. I was requesting my sister to walk slow. But she refused due to fear of late. One man was going towards school. He picked me up and told, "I will take you fast to the school."

His speed was fast. In very few minutes we overtake to my sister and her friend. I was feeling happy. I started clapping and laughing. I told sister, "I will reach first now." I started looking back to my sister and also looking towards school. When we reach near school gate. I asked that man to keep me down, so that I can go to school. But that man refused to keep me down. He beats me and told, "I will take you to my home." I started shouting and crying. I told my sister. She saw that man take me at his home which was in slum area. People were looking at us but no-one help.

My sister went to school and request the peon of school. He immediately came to rescue me; as he was student of my mother. He came to the house of the man. He fights with that man. And take me from him and we went to the school - my class.

I hear by "Thanks to God" for rescuing in the character of PEON.

I also understand I was blessed because of good deeds of my mother; she always take care of students.

(Request to all, (i) take proper care of any child, as to serve child is to serve God, and to hurt child is to hurt God. (ii) Respect all, as God can come to save us in any character.)
